“I just wanted to let you know how amazing Mike’s course was. Every session was such a learning curve! I find that the practical application of what I learned is really easy to do. Even though I do not know all the answers, I find that the ones that I do know make such a huge difference for people that they walk out of my office walking on clouds. I am getting telephone calls back the next day telling me how good they are feeling! Now that is amazing.
